## Market Data Gateway Arrangements

### Introduction

FEX Global (FGL) Global has scheduled network changes to promote our secondary Market Data Gateway to become a second primary gateway as follows:

### Network Impact

FROM: 10th July 2021 (Saturday), 1300hrs

TO: 10th July 2021 (Saturday), 1900hrs

Maintenance duration: 6 hours

Service impact duration: Nil

### User Impact

How you and your customers/users will be affected:

- FEX Global Market Data Gateway at Global Switch (118.127.75.221) will remain unaffected,
- FEX Global Market Data Gateway at Equinix (118.127.88.97) will be brought online as a primary gateway.

Customers who connect to the Market Data Gateway at Global Switch (118.127.75.221) will be unaffected.

Customers who connect to the Market Data Gateway at Equinix (118.127.88.97) will have their connection directed to the Equinix Server instead of the current routing to the Global Switch Market Data Gateway.

Rationale:

FEX Global is promoting our secondary Market Data Gateway to provide increased capacity and availability for our customers.

Activities to be performed on the day of 10 July 2021:

- FEX Global will enable access to the Market Data Gateway at Equinix via the IP 118.127.88.97
- FEX Global will confirm all customer accounts on the Market Data Gateway at Equinix

### Participant Actions

No specific actions by Trading Participants are required. This communication is made in case a change to existing connectivity is desired to further improve resiliency or redundancy in relation to Market Data Gateway connections. Existing architectures will continue to operate.
